REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a vehicle navigation server comprising a traffic information extracting device for extracting traffic information relating to each mesh unit of the proposed travel route from a traffic information storage device wherein the traffic information relating to the mesh unit which includes the start or current position of the vehicle is obtained first; a data amount monitoring device for monitoring a total amount of extracted information, wherein the data amount monitoring device terminates information extraction when the total amount of extracted information becomes equal to or larger than a predetermined value; and a data sending device for sending the extracted traffic information to a vehicle navigation device associated with the vehicle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hessing (U.S. Patent No. 6,334,089) discloses a vehicle routing and guidance system.

Morita et al. (US 2002/0152115 a1) disclose a vehicle managing method.
